

# BLOWN AWAY BY UREA PRICES?

## EXTEND THE GREEN AND SAVE MONEY

### *Nutrex-M/F & SuperTrace 6% iron*

Add *Nutrex-M/F* and *SuperTrace 6% iron* to melted urea in your tank and squeeze up to two weeks more green from your nitrogen dollars.

See rapid green-up and rich color within a short time.

*Nutrex-M/F* extends the nitrogen release by up to two weeks and minimizes volatilization and leaching so the turf gets all the nitrogen you paid for.

*SuperTrace 6% iron* delivers that rich, deep green you want without surge growth and environmental concerns.

Turn your tank mix into biological fertilizer because *Nutrex-M/F* contains USDA organic compliant microbes and fulvic acid.

10's of thousands of treatments in the Northwest by industry professionals just like you prove the claims.

Compared to a popular liquid slow release nitrogen fertilizer, *Nutrex-M/F* can save you \$1.46 1000/sq. ft.

Pick up some today, start saving money and deliver beautiful results!

Distributed exclusively by Wilbur-Ellis Co.
